Results driven Full Stack Web Developer. Experienced with a wide range of technologies and always willing to expand that knowledge. Highly team oriented, good communication and teamwork yield the best results. Strong dedication to producing high quality products for clients and end-users.

Skills:

HTML/CSS

SASS

Javascript

React

Typescript

Node.js

Ruby

Ruby on Rails

Experience

Skyline Management, Inc.

July 2020 to Present

Full Stack Web Developer

Responsible for the development and operation of both in-house and customer-facing applications. Worked as a team with other developers and designers to ensure the best results for our clients.

Skyline is an agency that works with multiple clients that all have different requirements, it was necessary for me to be highly adaptable and always willing to learn new technologies.

- Built client websites using HTML, CSS, Javascript, React, Gatsby and at times Wordpress.
- Helped agency clients build a strong online web presence.
- Ensured web pages are SEO compliant and allow for proper ranking.
- Built internal tools to improve company efficiency by more than 70%.

Spire Studios LLC

March 2018 to April 2019

Game Designer

Worked with a small team to develop a video game in Unity. Handled tasks such as animation scripts, inventory logic, gameplay design, UI and UX development. This was a challenging position as video games require a vast number of skills and adaptability.

- Designed logic puzzles to provide an enjoyable user experience.
- Wrote various scripts for handling inventory, animations and user interactions.
- Developed a user interface in Unity, using C#.

Retail Paradigm, Inc.

June 2013 to January 2018

Operations Manager

Managed inventory, supplies and handled interactions with manufacturers. Helped the company promote their products and improve the search rankings of the website. Performed various operational tasks that allowed company to run smoothly.

- Used a CMS to upload products and edit web pages.
- Helped improve conversion rates by over 100% via A/B testing.

Projects

Pencils & Inks

E-commerce website developed from scratch using React & Next js for the client side and Ruby on Rails for the server API. The website includes various features such as; products, users, filter settings, a review system with ratings, a shopping cart, and an admin panel for CRUD operations.
React, Ruby on Rails

Webmarks

Online file system that allows users to store folders and urls on the web. The front end for this application was built using React and Material UI. The back end API was built using Node with Express, and the user authentication was handled with Passport.
React, Gatsby, Node

Skyline Media Marketing

Skyline is an advertisement agency located in New York. I've been working with them for the past 2 years and developed their main website using React and Gatsby. After the creation of the website, the company experienced a 100%+ increase in leads from their marketing campaigns. It was a huge success.
React, Gatsby

Education

Miami Dade College

2011 - 2013

Pursued bachelors of science. Took essential college classes such as; Literature, Writing, Mathematics, Science, Humanities and Public Speaking.
Began working with a company during my college studies, it went extremely well and they hired me full time. Due to my dedication to the company, I decided to continue my studies further into the future.

Full Stack Web Developer Bootcamp

2019 - 2020

Took a web development bootcamp that taught me key development concepts and multiple programming skills, including; html, css, javascript and node js.

Modern React Bootcamp

2020 - 2021

Further expanded my skill-set by taking a React specific boot camp. This improved my react skills significantly. I learned about React classes, hooks, components, state management, api requests and life cycle methods.
